Reasons for comment:

Comments:	<p>Longfield Road is very narrow, especially as residents park their cars in the road, reducing it to a single lane. It is particularly difficult for traffic to get through when the primary school and special needs school end afternoon lessons. There are queues of taxis and minibuses trying to collect children and then turn around in the narrow road.</p> <p>The proposed development would take place on agricultural land, which is badly needed for food production and the extra cars would add to the traffic problems on Longfield Road and the adjacent A227.</p> <p>Meopham Medical Centre in Wrotham Road already has a full quota of patients and there would be no room to extend the building, as it is situated on a small site. The extra houses would also increase pressure on school places at the primary and secondary schools in Meopham, which are populat with local parents.</p>
