Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This development would have only 1 access road in and out. The Droeway junction with Istead Rise is often congested with the shop car park entrance near that junction. The doctors is already at capacity and it's hard to get appointments. The local hospital and dentist too. We depend on our cars as the bus service is awful and there are no safe walking routes to the nearest train station. There are already other applications for building around the village. We do have the infrastructure to support the amount of new homes that are being planned. Losing farmland when we need to be able to feed ourselves in these uncertain times is not what we should be doing. Losing green belt land and natural habitats is not going to help the environment. Finally, I would suggest a small complex of 1/2 bedroom bungalows to enable older residents to downsize and leave larger properties available for families would be a much better use of space.

Kind regards
