Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Pensioner living on the Drove Way since 1975. Main concern around health and transport access into Gravesend. The local doctors surgery currently does not have the capacity to take on an extra 150-300 patients. Local hospitals and emergency structures don;t either. Safety concerns around construction - the recent development by the doctors has seen a huge increase in traffic during construction, with a number of near accidents on surrounding streets and pavements. The drove way is not a wide street as many residents park on the road already (both day time and nighttime). This would be problematic for lorries accessing the site. The site access is a bottle neck at the end of the loop end of the drove way. This is unbelievably dangerous. The loss of woodlands on my doorstep is a concern as well. For future generations. The council fails to maintain existing assets (trees, pavements, etc) - and with discussions around food safety , the loss of agricultural land is concerning.
