Our Ref: GBC/2024/103401
Date: 20 December 2024

Application No: 20241109

Location: Dene Holm House , Dene Holm Road, Northfleet, Gravesend Kent

Proposal: Converting former residential care home into 23 x self contained flats, changes to fenestration, external landscaping, levels and boundary treatments.

Thank you for your consultation on the above referenced planning application.

Unfortunately no surface water drainage strategy has been provided for the proposed development. We would therefore recommend the application is not determined until a complete surface water drainage strategy has been provided for review.

At a minimum, a drainage strategy submission must comprise:

- A location plan
- A site layout
- A drainage proposal schematic or sketch
- A clear description of key drainage features within the drainage scheme (e.g. attenuation volumes, flow control devices etc.)
- Information to support any key assumptions (e.g. impermeable areas, infiltration rates etc.)
- Supporting calculations to demonstrate the drainage system's operation and drainage model network schematic
- Drainage strategy summary form (from our Drainage and Planning Policy Statement)
- Consideration of key questions and / or local authority planning policy requirements.

Our Drainage and Planning Policy Statement sets out how Kent County Council, as Lead Local Flood Authority and statutory consultee, will review drainage strategies and surface water management provisions associated with applications for major development and should be referred to for further details about our submission requirements. This is available on request, by emailing SUDS@kent.gov.uk.

Yours faithfully,

Becca Nicholas
Flood Risk Technical Support Officer
