Reasons for comment:

Comments:	I understand that a High Court Injunction prohibiting residential use of the area identified on this retrospective Planning Application has been in place for some years but has been ignored. Additionally it would appear that much activity is also occurring on the land adjacent to this site for which I could not find a current Planning Application. I can only conclude that this whole area is being made ready for more mobile homes/caravans to be added to this area. How can this be allowed to happen given the Injunction? The whole ambiance of the area has changed beyond recognition. What was a nice tree lined lane has been decimated, high fences have been erected across the land which have totally blocked the view to the south from White Post Lane. Given the number of trees that were decimated along the lane, many of which were mature it will take many years before the trees and hedges if ever, will recover. It is clear that the people responsible for these activities have no respect for the law by ignoring the Injunction and have no respect for the environment give the destruction of the trees and hedges and associated wildlife. I also have concerns about how and where they are disposing of their refuse. Clearly they have power and water supplies from somewhere. Please reject this application and consider taking the necessary steps to halt the current activities.
