

National Highways Planning Response (NHPR 21-09) Formal Recommendation to an Application for Planning Permission

From: Nicola Bell (Regional Director)
Operations Directorate
South East Region
National Highways
planningse@highwaysengland.co.uk

To: Gravesham Borough Council (FAO Case Officer Mrs Alison Webster)
planning.reps@gravesham.gov.uk

CC: transportplanning@dft.gov.uk
spatialplanning@highwaysengland.co.uk

Council's Reference: 20211509

Location: The Silver Birches, Bowesden Lane, Shorne, Gravesend, Kent

Proposal: Erection of a first floor side extension, with alterations to the external surfaces of the existing house.

National Highways Ref: 93469 #15596

Referring to the consultation on a planning application dated 15 December 2021 referenced above, in the vicinity of the A2 and M2 and the proposed Lower Thames Crossing forming part of the Strategic Road Network, notice is hereby given that National Highways' formal recommendation is that we:

- a) offer no objection (see reasons at Annex A);**
- ~~b) recommend that conditions should be attached to any planning permission that may be granted (see Annex A – National Highways recommended Planning Conditions & reasons);~~
- ~~c) recommend that planning permission not be granted for a specified period (see reasons at Annex A);~~
- ~~d) recommend that the application be refused (see reasons at Annex A)~~

Highways Act 1980 Section 175B ~~is~~ is not relevant to this application.¹

This represents National Highways formal recommendation (*prepared by the Area 4 Spatial Planning Team*) and is made available to the Department for Transport as per the terms of our Licence.

Should the Local Planning Authority not propose to determine the application in accordance with this recommendation they are required to consult the Secretary of State for Transport, as set out in the [Town and Country Planning \(Development Affecting Trunk Roads\) Direction 2018](#), via transportplanning@dft.gov.uk and may not determine the application until the consultation process is complete.

The Local Planning authority must also copy any consultation under the 2018 Direction to planningse@highwaysengland.co.uk.

¹ Where relevant, further information will be provided within Annex A.

² As announced on 19 August 2021 Highways England became National Highways; although our roles and responsibilities remain largely unchanged and our branding will transition over a period of time.

Annex A **National Highway's assessment of the proposed development**

National Highways has been appointed by the Secretary of State for Transport as a strategic highway company under the provisions of the Infrastructure Act 2015 and is the highway authority, traffic authority and street authority for the Strategic Road Network (SRN). The SRN is a critical national asset and as such we work to ensure that it operates and is managed in the public interest, both in respect of current activities and needs as well as in providing effective stewardship of its long-term operation and integrity.

No Objection: Reasons

We will be concerned with proposals that have the potential to impact on the safe, reliable and efficient operation of the SRN, in this case, particularly the proposed route of the Lower Thames Crossing in the vicinity of Gravesend.

We have assessed the application from two perspectives

- a) Impact of traffic attracted to or generated by the proposed development. Given the location and small-scale nature of the potential development we have no objection from this perspective.
- b) Impact on the construction and/or operation and maintenance of Lower Thames Crossing. The site is located close to the current red-line boundary for the Lower Thames Crossing. However, if the site is developed it should not affect the Crossing's construction and/or operation and maintenance. Therefore, we have no objection from this perspective.

It should be noted that it is assumed that the applicant is fully aware of the proximity of the Lower Thames Crossing route to the site as will be any future investor, developer, purchaser or occupant and that any party will make any decision in full knowledge of the potential consequences of that proximity.

On this basis, we are content that the above proposed development will not unacceptably impact on the safety, reliability and/or operational efficiency of the current and proposed SRN (the tests set out in DfT C2/13 and MHCLG NPPF2021).

Consequently, we have No Objection to application 20211509.
