Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this development not for its design or intent but for the evidenced inability of GBC to maintain the works in good order. See the 1st phase and the lack of care and maintenance. I will support the works if there is a maintenance condition attached with allocated funding. Also, it seems from the parking restrictions (already in place?) that the works will take 9 months. This means the area will be unusable for the duration of the summer and the area a blight until April 2027! These works can and should be completed in 3 months or less - 9 months is excessive in all ways.

Kind regards
