Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments:	The Gravesend Muslim community is growing and there is no longer adequate space within the area to facilitated the community. This application offers a vital chance to support the local Muslim community but also the wider community. The property in question is currently a derelict public house. This project will re-energise this area by replacing this public house with a new community area. This will benefit the local residents and local businesses. From a personal perspective, this would become the nearest place of Muslim worship. This would be hugely beneficial to me and my family, who would genuinely appreciate this so much. From a broader community perspective, this would hugely help the local Muslim community. The fact that there is a car park nearby also means that there will be minimal disruption to the local residents. I understand that there is a current climate of hostility to Muslims. I urge the committee to see beyond this. The Muslims in Gravesend have benefited the area so much and are a key part of our local fabric. Please ensure that they have the same chances as any other community.
