

SIGN 1

Height 1500mm

Width 5900mm

Depth 150mm

Height from the ground 5000mm

Maximum projection of the advert from the face of the building 150mm

Maximum height of any individual letters and symbols 1000mm

Materials aluminium sign panel painted blue, fabricated letters painted white with Perspex faces. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 2

Height 1500mm

Width 3000mm

Depth 185mm

Height from the ground 5000mm

Maximum projection of the advert from the face of the building 185mm

Maximum height of any individual letters and symbols 600mm

Materials fabricated aluminium flexface sign box painted blue with PVC face panel with printed graphics. Letters only to illuminate. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 3

Height 1500mm

Width 3000mm

Depth 185mm

Height from the ground 3000mm

Maximum projection of the advert from the face of the building 185mm

Maximum height of any individual letters and symbols 600mm

Materials fabricated aluminium flexface sign box painted blue with PVC face panel with printed graphics. Letters only to illuminate. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 4

Height 1500mm

Width 4500mm

Depth 150mm

Height from the ground 3000mm

Maximum projection of the advert from the face of the building 150mm

Maximum height of any individual letters and symbols 1200mm

Materials aluminium sign panel painted blue, fabricated letters painted white with Perspex faces. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 5

Height 1200mm

Width 2100mm

Depth 25mm

Height from the ground 3000mm

Maximum projection of the advert from the face of the building 25mm

Maximum height of any individual letters and symbols 500mm

Materials 5mm white Perspex letters with locator fixings on the back.

Non illuminated

SIGN 6

Height 1800mm

Width 3600mm

Depth 185mm

Height from the ground 5500mm

Maximum projection of the advert from the face of the building 185mm

Maximum height of any individual letters and symbols 400mm

Materials fabricated aluminium flexface sign box painted white with PVC face panel with printed graphics. Letters only to illuminate. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 7

Height 1800mm

Width 3600mm

Depth 185mm

Height from the ground 5500mm

Maximum projection of the advert from the face of the building 185mm

Maximum height of any individual letters and symbols 400mm

Materials fabricated aluminium flexface sign box painted blue with PVC face panel with printed graphics. Letters only to illuminate. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 8

Height 1800mm

Width 7400mm

Depth 150mm

Height from the ground 5500mm

Maximum projection of the advert from the face of the building 150mm

Maximum height of any individual letters and symbols 1200mm

Materials aluminium sign panel painted blue, fabricated letters painted white with Perspex faces. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 9

Height 1800mm

Width 3600mm

Depth 185mm

Height from the ground 5500mm

Maximum projection of the advert from the face of the building 185mm

Maximum height of any individual letters and symbols 400mm

Materials fabricated aluminium flexface sign box painted blue with PVC face panel with printed graphics. Letters only to illuminate. Illumination from white LED

Illumination cd/m², 300

Internal static illumination

SIGN 10

Height 1800mm

Width 5600mm

Depth 185mm

Height from the ground 5500mm

Maximum projection of the advert from the face of the building 185mm

Maximum height of any individual letters and symbols 400mm

Materials fabricated aluminium flexface sign box painted white with PVC face panel with printed graphics. Letters only to illuminate. Illumination from white LED

Illumination cd/m², 300

Internal static illumination
