Reasons for comment:

Comments:	The proposed development of this 3 bedroom bungalow to a 7 bedroom 2 storey house is not in keeping with other properties in this part of Tennyson Walk. Numbers 1 - 53 on the same side are all bungalows. This huge property will not be ascetically pleasing, it will tower above the bungalows and some of the houses. Due to the position of the entrance [REDACTED] home and the position [REDACTED] kitchen window the height of the proposed building will block all natural light from the interior [REDACTED] home and [REDACTED] kitchen. This will impact on our mental wellbeing this together will the high wall blocking our outlook. Our garden along with the bungalow the other side of 45 will lose all privacy as our gardens will be totally overlooked. The position of the additional bedroom downstairs as it appears on the drawing would mean anyone coming up our drive will be able to see in - embarrassing for all. As the additional floor space for this building work appears to be mainly to increase the sleeping accommodation it could indicate a change to the property from a single family occupancy ie 5 Adults. At the moment there is 6 cars parked on the concrete drive and in the road so it is not unreasonable to assume the need for parking will increase. Parking and traffic is a cause for concern. Additional cars increase air and noise pollution at a time we are being encouraged by the government to consider the environment. Tennyson Walk is a very busy road and parking is already difficult. What will be the daily hours of work for the contractors working on site. Will disposal of all rubbish and material be cleared promptly and in accordance with H&S regulations particularly if asbestos is found and to avoid blocking footpaths, access t o neighbours driveways and the road.
-----------	---

On no account is the building to encroach on the space between the two bungalows.

Kind regards
