Reasons for comment:

Comments:	Meopham is known as the longest village in Kent. If this planning goes ahead, it will be known as the longest car park. Wrotham Road leads to the A2 and M25 at one end and the M20 the other end. It takes one accident on the A2 Coast bound or London bound and/or the M20 for the whole of Cobham, Sole Street, Meopham, Longfield and most of Gravesend to be at a standstill. There will also be, within the next five years, more traffic on the local roads, the new tunnel to/from Essex to be built in Gravesend/Shorne, not to mention the vineyards in Luddesdown which all create more traffic. There is also the problem of our local senior school which has already been expanded twice in the last five years and is full of students from the London area so already our local children can't get places. The local doctors are completely over subscribed as are all other facilities. Local housing which supposedly has to be built is not affordable housing for our grown up children but expensive housing for builders and large companies to make more money. These businesses do nothing to help our local community! They just make it busier with houses and roads and no infrastructure. I've lived in this area all my life, I feel very lucky to have our local semi rural surroundings. Our local wildlife is obviously struggling, as an avid walker, this can be seen on a daily basis. I can't believe that Gravesham Council will even consider building on any of our farmland or green spaces. It's disgraceful. Our poor beautiful Meopham and surrounding villages. It's something we should be proud of, not something we should be selling to make more money.
