Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I fully support this application. The current garage is an eyesore and its demolition and replacement would benefit the visual appearance of the area. The hard standing area adjacent to the existing garage would benefit from improvement. Furthermore the current access road to the existing garage is very narrow and in my opinion the ability to park vehicles on the front of the property via the crossover, would reduce the traffic on this very narrow access road and would benefit all the surrounding properties. It would additionally reduce the need for vehicles to park on the road, thus leaving on road parking for those visiting the local shop.

Kind regards
