Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to the planning application for 100 homes for land North Of The Drove Way Istead Rise Gravesend Kent DA13 9JY. Istead Rise are not able to cope with another 100 homes in the surrounding area. 100 homes will bring at least another 200 cars with accesses from the Drove Way. Already, Istead Rise is used as a cut through if there are problems on the A2 (which is very normal during the morning on a weekday), which means Istead Rise becomes gridlocked for getting out and have been known to queue for over 15 minutes to just start my journey. The doctor surgery is already over capacity and difficult to get an appointment, so another 200+ patients is not an option. I know a lot of people that live in Istead Rise already were unable to secure places for their children at the local primary school, due to over capacity, so therefore have to travel further and use cars to take their children to school. Public transport is not an option, as you need a car to get to the nearby station (Meopham) as the route is not walkable and safe to walk and bus services are limited and unreliable. Istead Rise does not have the correct infrastructure to support this development of such a size.

Kind regards
