Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Having become aware of the planned application to develop a McDonald's on the old Woodlands site i am emailing to strongly object. As we already have two in Gravesend, one of which is 5 minutes away (the other at Asda) i cannot see how having another one with all the associated traffic, noise, pollution, litter and general disturbance benefits the local area. It is next door to one of the few green spaces left near to the town centre and no distance from a school, and i thought there to be framework in place regarding local authorities turning down applications for fast-food outlets "within walking distance of schools" unless they are in a town centre - like the one we already have! Citing in the new National Planning Policy Framework that local authorities should "put children's health first". Having looked at the plans i presume the large area taken up by the kitchen + the delivery facilities and the few parking spaces provided means that a large proportion of what will be made here will be to support takeaway food. There is also the impact the footfall / vehicles will have on the local residents on an already congested and polluted road.

Kind regards
