Reasons for comment:	
Comments:	The land is greenbelt agricultural land with woodland copes and has a significant amount of wildlife and animals which we should be protecting for the next generation let alone for this one . the inevitable damage this completely unnesaary development will cause can only increase and damage the environment around this areas ie in increased air borne and light pollution to both sole street and Meopham villages we need to preserve the character of the villages not shatter it and increase pressure on a already difficult and challenging resources that the village has from traffic we have had sink holes and endless traffic issues in Meopham and will only get worse with the multiple development being forced on are villages the area around camer and the field opposite the shops in Meopham has had along history of flooding which will only be worse only thus large development start when do they stop at some point we have to protect what we have .

Kind regards
