Reasons for comment:

Comments:	I thoroughly support the drop down curb , as I see my neighbour really struggling to walk up to her front door as she is disabled . The turning corner of the end of the road is blocked by parked cars so having the drop down curb will help with vehicles, delivery vehicles also being able to turn their cars around. There is no parking in our road and if people park on the curb then it will block access for emergency services to come into our road. It will be a positive move to have the drop down curb. Also our neighbour is a funeral director and brings long vehicles home as he is on call during the night , so he needs to be able to park the vehicle safely and out of the way . After discussions with my neighbours we all agree this is a positive move for the whole street
