Dear Sir/Madam,

A24310 – 70 Old Road East, Gravesend
Our reference – A24310/250122/GBC/SJB

On behalf of our Clients, Mr and Mrs D. Gates, the owners of the property, we confirm the submission online today of a Lawful Development Certificate - Proposed Use, Planning Portal reference PP-13706973, for proposed works at 70 Old Road East Gravesend Kent DA12 1PE, comprising in addition to this covering letter:

- Completed application form,
- 1000 Location Plan,
- 1001 Existing Site Block Plan,
- 1002 Existing Site Photographs,
- 1010 Existing Ground Floor Plan,
- 1011 Existing First Floor Plan
- 1012 Existing Loft Floor Plan
- 1013 Existing Roof Plan,
- 1020 Existing Section AA,
- 1030 Existing North Elevation,
- 1031 Existing South Elevation,
- 1032 Existing East Elevation,
- 1033 Existing West Elevation
- 1101 Proposed Site Block Plan,
- 1110 Proposed Ground Floor Plan,
- 1111 Proposed First Floor Plan,
- 1112 Proposed Loft Floor Plan,
- 1113 Proposed Roof Plan,
- 1120 Proposed Section AA,
- 1130 Proposed North Elevation,
- 1131 Proposed South Elevation,

- 1132 Proposed East Elevation, and
- 1133 Proposed West Elevation.

The proposed works comprise:

- the comprehensive removal of the existing pitched roof construction, including external tiles, timber battens, weathering membrane and internal spray applied thermal insulation, and replacement with a new pitched roof construction, with external roof tiles of a similar material but simpler profile to the existing, as Weinerberger 303 Old Weathered or Alban Sussex Blend for which images are attached below, or similar, including flashings, eaves and verge fascias, and the like,
- the internal refurbishment of the loft storage space with 2 no. external pitched rooflight windows to the rear elevation, and an internal retractable stair and hatch to provide additional access,
- the creation of an internal double height volume in the first-floor master bedroom through the removal of the loft floor,
- the demolition of the existing single storey ground floor rear conservatory, and the construction of a single-storey ground floor rear extension, with 2 no. rooflights, and
- the associated internal and external works.

Not being located on 'Designated Land', nor subject to an Article 14 notice, the property benefits from Permitted Development rights, as defined by The Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), and the proposed rooflights wholly comply with the respective Class B Permitted Development constraint criteria.

Similarly, the proposed ground floor rear extension wholly complies with the respective Class A Permitted Development constraint criteria, as follows:

- it does not increase the total area of land occupied by the original house, additions and outbuildings to exceed 50% of the total area of the land,
- it is not forward of the principal elevation or side elevation fronting a highway,
- the proposed materials are similar in appearance to the existing house,
- it is not within 2m of a boundary but the eaves height is nonetheless less than 3m,
- it does not extend beyond the rear wall of the original detached house by more than 8m,
- the maximum height is less than 4m, and
- the roof eaves and ridge heights are the same as the lowest existing eaves and ridge heights, respectively.

Whilst the proposed works, including the proposed re-roofing on a like-for-like basis, may not require formal planning consent nor confirmation of legality, with the exception of the proposed rooflights and the ground floor rear extension, the full scope of work has been included in this application for information and for the avoidance of doubt.

In addition to fully complying with the Permitted Development criteria, the proposals are also fully compliant with both national planning policies, including the NPPF and associated guidelines, and local planning policies, including the Gravesham BC Householder Extensions/Alterations Design Guide (SPD) in particular, with no detrimental impact on any adjoining property and, as such, should therefore be considered favourably.

Should there be any queries or concerns with any aspect of the proposals, we would be pleased to review the proposed works with yourselves in order to achieve an agreed and acceptable proposal prior to the determination of this application.

The respective application fee of £129 and the Planning Portal service charge of £70, both including VAT, will be paid separately and directly by the applicant.

We would be pleased to receive the following from you:

- Confirmation of receipt of this application, its validity, registration and that no further information is required,

- A receipt for the application fee,
- Confirmation of the timescale for the formal response to this application.

We look forward to your acknowledgement of receipt of this application at your earliest convenience.

Yours faithfully

Steve Baker
