Reasons for comment:

Comments:	I am seriously worried about the impact this planning application will have on the immediate area. 1. Longfield road is extremely narrow and there are always residents cars parked on either side (most do not have driveways) making it extremely difficult to navigate. There has also been serious vehicle accidents along that stretch of road. 2. This building work will cause alarm and stress (sensory overload) to the pupils of the Helen Allison School (a SEN school). This will negatively impact the wellbeing of students who attend the school who need a calm, low noise environment. 3. The land that has been earmarked for planning is high grade agricultural land that has been farmed for centuries. This land contributes towards food production. It is really important that as a country we are ensuring we can feed ourselves (using our farm land) rather than rely on importing food from other countries. In an unsettled time, we need to be able to feed our nation from within. Access to the new homes will be really dangerous on that stretch of road - as said above accidents have happened at this location in the past. There will be more traffic along that stretch of road where a junior school and a pre school are located already - so it is already a busy area and at specific times of the day has large numbers of children in the vicinity.
-----------	--

Kind regards
