

**TOWN AND COUNTRY PLANNING ACT 1990  
THE TOWN AND COUNTRY PLANNING (DEVELOPMENT MANAGEMENT PROCEDURE)  
(ENGLAND) ORDER 2015 (AS AMENDED)**

**NOTIFICATION OF GRANT OF PERMISSION TO DEVELOP LAND**

To: **D Broomfield  
C/O Mr Graham Simpkin, Graham Simpkin Planning Ltd  
2 The Parade  
Ash Road  
Hartley  
Longfield  
DA3 8BG**

**TAKE NOTICE** that the **GRAVESHAM BOROUGH COUNCIL**, the Local Planning Authority under the Town and Country Planning Acts, has **GRANTED PERMISSION** for development of land situate at:

**Nurstead Hill Farm  
Nurstead Lane  
Longfield Hill  
Longfield  
Gravesend  
Kent  
DA3 7AN**

and being **Application for change of use of storage building (B8) to provision of an equestrian water treadmill for horse rehabilitation**. Your application dated 1st September 2021 is permitted subject to the following:-

1. The development hereby permitted shall be begun not later than 3 years following the date of this permission.

**Reason:** In pursuance of Section 91 of the Town and Country Planning Act 1990, as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall be carried out in accordance with the following approved plans and documents:

Drawing no. 1839/20 (Site Location Plan) received 14 July 2021;  
Drawing no. 1839/21 (Proposed Block Plan) received 14 July 2021;  
Drawing no. 1839/23 (Existing Block Plan) received 28 July 2021;  
Drawing no. 1839/25 (Site Plan) received 28 July 2021;  
Photographs received 28 July 2021;  
Application form received 28 July 2021;  
Drawing no. 8365-000-50 Rev. 3 (Sheet 1 of 2) (Proposed Equipment Layout) received 29 July 2021;  
Design, Access and Planning Statement (ref. 1839) received 1 September 2021;  
Photos received 1 September 2021;  
Drawing no. 8365-000-50 Rev. 4 received 1 September 2021; and

**Reason:** For the avoidance of doubt and in the interests of proper planning.

## **INFORMATIVES:-**

### **1 CODE OF PRACTICE FOR CONSTRUCTION/DEMOLITION SITES WITHIN THE BOROUGH OF GRAVESHAM**

This Code of Practice relates to all building sites in Gravesham and is given to ensure best practice is achieved equally throughout the borough. All aspects of the code apply to every building site and will only be altered on an individual basis if there are found to be special circumstances on that particular site. Any amendment made will be in writing by an authorised officer of the Environmental Health Department. The following circumstances are given where consideration will be given to a variation in the Code of Practice:-

- a) Where occupiers of noise sensitive properties are unlikely to be affected by the works.
- b) Where the work cannot be carried out during the hours specified because of the requirements of another authority such as the emergency services, utilities, traffic management authorities etc.
- c) Where the site location is isolated or where the works are in a mainly commercial/industrial area with few residential properties.

In all the above cases the onus will be on the applicants to provide written justification as to why the code should be varied. When making such a statement the applicant must include the following information where appropriate:-

- i) Location, nature and duration of works.
- ii) Measured/predicted noise levels and background levels.
- iii) Measured/predicted vibration levels.
- iv) Proximity and numbers of residential properties.
- v) Evidence of public consultation/information to persons likely to be affected.
- vi) Written evidence from the appropriate authority (in instances where b) above applies).

In order for adequate consideration to be given by this Council to a request for deviation from the Code of Practice, any proposal must be provided in writing to the Environmental Health Services Manager at least fifteen working days prior to the works starting.

On developments where construction/demolition is undertaken on contaminated land, work will be required to be carried out in a way which will be specified within conditions of the site's planning approval.

The requirements of this Code of Practice should prevent unnecessary disturbance to nearby residents. In the event of a nuisance being caused due to work not being carried out in an appropriate way, the council may take enforcement action to resolve the situation.

Please note compliance with Health and Safety requirements arising from construction/ demolition work shall be given priority over this Code of Practice.

## **BURNING OF MATERIAL**

It is expected that no burning of materials shall take place on a construction or demolition site. Where the contractor is of the opinion that this is unavoidable he shall make representations to the council for consideration. No burning will be allowed to take place without written authority from a suitably authorised officer of the council. Any burning so authorised will be subject to strict controls which will include, amongst other matters, the following:-

- o A strict control on the amount of material burnt at any one time.

|                                                    |                      |     |
|----------------------------------------------------|----------------------|-----|
| Educational Establishments,<br>Offices and similar | Normal working hours | 0.4 |
|----------------------------------------------------|----------------------|-----|

|            |                      |     |
|------------|----------------------|-----|
| Commercial | Normal working hours | 0.8 |
|------------|----------------------|-----|

Best Practicable Means shall be used to control Peak Component Particle Velocity measured at the base of any building in accordance with BS 7385 does not routinely exceed a level of 10 mm/s.

In instances where complaints of vibration are received within any adjacent property then the contractor shall immediately take all measures necessary to demonstrate that the vibration levels are below the limits shown in the paragraphs above.

Where the results of any monitoring indicate non-compliance with the limits stated above, the contractor shall immediately change the method of working, and/or the plant being used. Prior to the work recommencing, the contractor shall satisfactorily demonstrate that the new arrangements satisfy the vibration limits.

## **DUST**

Dust suppression techniques shall be used on site where significant quantities of spoil or fine aggregates are stored and/or where the site location is such that it is likely persons living in residential properties are going to be affected by wind blown dust.

Spoil temporarily placed on site shall be located as far away from sensitive properties as possible. The height of stored material shall be kept as low as is practical and water sprayed onto the surface of the piles shall be used as appropriate to keep the surface damp.

Where longer term storage of fine aggregates and other potentially dusty material is necessary, suitable storage facilities shall be used where practicable in order to screen these materials from the wind. This stored material shall be located so that it is as far away from sensitive properties as possible and measures to prevent wind blown dust shall be adopted. These shall include:-

- \* keeping the height of stock piles as low as possible,
- \* using water sprays as appropriate whilst minimising the production of excessive runoff,
- \* minimising the re handling of dry construction materials and spoil,
- \* keeping the loading drop heights to as low as possible,
- \* where appropriate applying the surfaces of roads on site with water sprays as necessary and/or using wheel-washing facilities.
- \* all materials transported to and from the site shall be conveyed by suitable vehicles in enclosed containers or using other adequate wind shielding measures such as sheeting.

The person responsible for the site shall keep on site a daily log book which will be available to visiting authorised officers and shall list the following:-

- \* the conditions on site,
- \* whether any wind blown dust was visibly coming off the site,
- \* what control measures were carried out, and
- \* what the results of these were.

## **COMMUNICATION**

It shall be a matter of priority for a contact name and telephone number to be set up in order to enable ready two-way communication and contact with the council and local residents. In cases where work likely to cause a disturbance is to be carried on out of normal working hours, the phone line would be manned whilst the work is ongoing.

## **LIGHTING**

Where security and/or site lighting is used, this shall be located and directed or screened so that it does not cause undue intrusion to adjacent occupied residential properties, or sensitive areas, or constitute a road hazard, and shall be chosen to limit light pollution effects such as "glow in the sky".

## 2 DEVIATION FROM APPROVED PLANS

It is possible that any proposed deviation from the approved plans could be classed as a 'material' change requiring a further application/permission. In the event that any change is proposed, applicants are advised to seek advice from the Local Planning Authority [as proceeding without the necessary permissions could nullify this permission].

## 3 BUILDING REGULATIONS CONSENT

The granting of planning permission is independent from the granting of Building Regulations consent (which may, or may not, be required). In the event of a change to the scheme granted planning permission being required to satisfy the Building Regulations, applicants are advised to seek advice from the Local Planning Authority [as proceeding without the necessary permissions could nullify this permission].

## 4 STATEMENT OF POSITIVE AND PROACTIVE APPROACH TO DECISION-MAKING

In accordance with Article 35 (2) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended), and paragraph 38 of the National Planning Policy Framework (NPPF) 2021, the Local Planning Authority has approached the assessment and determination of this application in a positive and creative way and, where appropriate, has worked pro-actively with the applicant to secure a development that is sustainable and that improves the economic, social and environmental conditions of the area, and that is in accordance with the Development Plan for the area.

Dated: 21 October 2021

### NOTIFICATION TO APPLICANT

#### APPEALS TO THE SECRETARY OF STATE

- If you are aggrieved by the decision of your Local Planning Authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.
- If this is a **householder application\*** which has been refused and you want to appeal against your Local Planning Authority's decision then you must do so within **12 weeks of the date of this notice**.
- For all other applications, refused or permitted, if you want to appeal against your Local Planning Authority's decision then you must do so within 6 months of the date of this notice.
- **Appeals must be made using a form which you can obtain from the Planning Inspectorate at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN; telephone: 0303 444 5000; email: enquiries@pins.gsi.gov.uk or online at**

- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

#### **\*Householder applications**

These are:

- (a) applications for planning permission for development of an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse, or
- (b) an application for any consent, agreement or approval required by or under a planning permission, development order or local development order in relation to such development

but does **not** include –

- (i) an application for change of use;
- (ii) an application to change the number of dwellings in a building.

#### **PURCHASE NOTICES**

If either the Local Planning Authority or the Secretary of State for the Environment refuses permission to develop land or grants it subject to conditions, the owner may claim that he/she can neither put the land to a reasonably beneficial use in its existing state nor can he/she render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

#### **COMPENSATION**

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference of the application to him.

These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
