Date: 18th February 2025

Dear Sir,

Town and Country Planning Act 1990

**Consultation on an application for proposed construction, operation and maintenance of a Battery Energy Storage System (BESS) with associated infrastructure (including batteries in storage containers, a substation and inverters) and works including highway access, landscaping and biodiversity enhancements
Land To North And South Of Station Road Southfleet Gravesend Kent**

I refer to the above application which has now been considered by the Borough Council and wish to thank you for the opportunity to comment thereto.

The Borough Council wish to make observations about the proposal subject to the reasons specified hereunder:

The cabling works proposed in Gravesham – which would be routed under existing highways – are considered unlikely to give rise to material planning implications for Dartford Borough Council. The Council note that there will be ongoing dialogue between DBC and GBC.

Yours faithfully

Head of Planning Services
