Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This proposed development will have an immense negative impact on the surrounding area, especially regarding the additional traffic using The Drove Way as there is only one way in and out, but also the A227 and all the surrounding country lanes which cannot cope with existing traffic. Therefore having several hundred additional cars, vans and delivery lorries will cause serious problems for the immediate area and beyond. The loss of productive agriculture land is also a cause for concern, once the area is gone it can never be reclaimed and therefore we as a nation become more reliant on importing basic food produce which has always been grown here. There will also be an adverse affect on wildlife, having such a large development will undoubtedly take its toll on many species, including birds, bats and small mammals.

Kind regards
