Reasons for comment:

Comments:	I strongly object to application 20241164 as the land is established greenbelt land. In 2009 a High Court Injunction was issued (Case No HQ09X02792) prohibiting any residential use of this land. This Order was placed by Gravesham Borough Council for all future owners not to be able to able to build on this land and the current occupiers are now in breach of this injunction. On the 19th December 2024 a large mobile home blocked Nurstead Church Lane and White Post Lane for several hours. The mobile home was clearly far too wide to be accommodated by these two country lanes. The consequence of this was that between 30 to 50 established trees and bushes including at least two very old oak trees were decimated along with wildlife displacement caused by the destruction. This is a complete and blatant disrespect for our beautiful environment and surrounding countryside and wildlife. This is criminal damage and breach of the Injunction placed by Gravesham Borough Council. At the time the Police were called along with Council Officers but the mobile home was still installed. Also what about mains, drainage, sewers, rubbish collections, electricity to the property? How is this being accommodated? Surely this is an environmental issue and must be addressed. Lastly I would just like to conclude by stating once lost greenbelt will never be restored again!
