Dear Ollie,

The hard standing was in situ when we first viewed the house in October 2014.

We moved in in June 2015 and we have used the hard standing to park our car ever since.

Historically the house was built in the early 60s and although we are unsure what was initially outside the house our neighbor in 63 South Hill Road has told us that it was hard standing when they moved in in 1988.

Hope this is all you need but if you have any further questions please do not hesitate to let me know.

Kind regards

Mark Champion
