Reasons for comment:

Comments:

To the Planning Committee,

I am writing to formally support this application as a local resident of Heron Hill, Culverstone Green. I know the applicants personally and can attest that they are friendly, decent, and law-abiding individuals who would be a positive addition to our residential community.

I am moved to write this because of the significant amount of misinformation being circulated on local social media platforms, specifically the "Culverstone Residents" Facebook group. I wish to bring the following points to the committee's attention:

Unsubstantiated Allegations: There have been consistent efforts to sabotage this application using false claims of intimidation, threats, and violence. It is my firm belief that these are fabrications designed to prejudice the committee. If such incidents had occurred, they would be matters for the police; the lack of any official crime references suggests these claims are entirely unfounded.

Challenging Racial Bias: I am deeply concerned by the nature of the objections being encouraged online. Some individuals have used derogatory and dehumanising language, referring to the applicants in ways that are clearly racially biased. Such comments have no place in a fair planning process and should be dismissed as they do not constitute material planning objections.

Impact on the Area: Contrary to claims that this development would be an "eyesore" or negatively affect property values, I believe that providing a secure home for this family is a matter of basic human dignity and community welfare. I wholeheartedly urge the planning committee to see past the biased narrative

being pushed online and judge this application on its actual merits. These are good people who simply wish to secure a stable home for their family

Kind regards
