Dear Sir/Madam,

Planning Application comments have been made. A summary of the comments is provided below.

Comments were submitted at 07/12/2025 8:36 AM from [REDACTED]

Application Summary

Address: Nuralite Industrial Estate Canal Road Higham Rochester Kent ME3 7JA

Proposal: Application for removal of condition 4 ,6,12 and variation of condition 7 attached to 20190290 - The proposal is for the systematic redevelopment of the existing Nuralite site. This includes the importation of inert materials to cap, and landscape the historic asbestos landfill, thus containing its contamination risk. To demolish the existing buildings of the Nuralite industrial estate, deal with existing contamination, both through capping and removal of areas of hydrocarbon pollution, the laying of new service and utility infrastructure and the construction of 11 new purpose built light industrial type units and a site office; to allow removal of passing places, temporary traffic controls, Archaeological works and implementation of a permanent TRO for all traffic.

Case Officer: Mr Richard Hart

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: I strongly object to this proposed one way system. My parents live in gore green road and will be significantly impacted by this decision. They are only able to drive their motorhome up their driveway by coming from the direction ofcliffe woods, this means they will be driving against the one way system. Unless the council are offering to fully pay for work and labour which will widen their driveway and allow them to drive in from the right direction? Forcing massive lorries down a road that is simply not wide enough or designed to carry such large vehicles is in my opinion a really unprofessional, not thought out theory, thought up by a group of individuals or project leaders who have no experience or regard for the area, the roads or it's residents which will be impacted. The nuralite industrial site is in a really inaccessible area and regenerating it without properly thinking about it's access roads is poor practice by gravesham council.

Kind regards
