Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: The infrastructure in Meopham is not able to support further housing development without serious financial input. Medical, education and transport facilities do not even maintain the current population. The site suggested is next to two schools with associated parking problems and residential properties that do not have off-road parking. The development would remove valuable farming land. Longfield Road is a narrow B road but is extremely busy as it connects two population centres. It is used heavily whenever there are problems on the A2 and by rail replacement buses during the not infrequent rail closures. The close proximity of shops which have their own parking problems will put even further demands on the already crowded roads, Every household on the new development will need at least one car as the bus service is every hour and a half and does not run in the evening. The station is a mile away - too far to walk.

Kind regards
