Reasons for comment:	
Comments:	<p>This proposed development will use land that has and could still be used for farming. With the economy of the country in difficulty, it makes sense to use the green fields of the area to grow produce with out the need to rely on imports from overseas, lessening the impact on the climate.</p> <p>With unemployment also an issue it would be ideal for a facility to be set up whereby those who have difficulty in attending traditional work places, have the opportunity of contributing to the local community and economy?</p> <p>I do not agree with the housing development on this site.</p>

Kind regards
