Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I OBJECT to this planning application. I understand that I can only object on planning grounds and since the land is classified as Green Belt you can REFUSE the application with no further thought, as you have done for previous development applications since 1954. You also have the Injunction in your favour which I would expect you to already be pursuing with the Court. With reference to the government inspector's recent decision for the same land, it seems inconceivable that Green Belt can become Grey at the hands of the land owner who has everything to gain. I cannot believe the government meant this to happen. I am aware that there is always the potential for some 'flexibility' with Decisions. I therefore urge you to ignore the pleas from the applicant to let them remain on the land, that their children need to go to local (Dartford, really ?!) schools etc. Whatever they say, whatever they claim they will do, we know it will not be true. We know that this is just stage one of a continuing process, always enacted BEFORE an application is submitted (on a Friday). The applicant has already demonstrated what they think of planning laws and the laws of the land. They will cause whatever damage to the environment etc is necessary to get their own way, as they are doing to Whitepost Lane. Expansion will continue to occur, first 1, then 8, then as many as they want. The green belt designation of this important piece of land must be upheld. Gravesham Council must not use this type of application and the inevitable appeal to get themselves out of the difficult decision to create 'enough' traveller camp site spaces in suitable locations. Inspector decisions must be challenged.
