Reasons for comment:

Comments:	I am in support of this change , as it keeps that corner looking tidy and free from vans parked all over the space . Since the fence has been erected and the space being used as a residential garden there have been zero accidents on the bend where as before when the space was public , vans and cars parked all over it and were reversing onto the road and creating very dangerous road conditions. It's much more environmentally friendly as a residential space with the high fence .
