Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Construction of an L-shaped outbuilding, on an existing concrete base, adjacent to the northern boundary of the property, within the boundary of the garden.

The construction will comprise two loose boxes, a tack room and a hay store for use by the householder. The small yard area to the south of the outbuilding will be a Grasscrete.

The building will be a semi subterranean, to fit with the sloping nature of the site, to the front of the location is a large earth mound. As such the east, north and west elevations will be of concrete/block construction, reinforced with 12mm steel rebar. The wall to the south will be constructed of concrete blocks.

All exposed external walls will be timber clad, with a dark preservative wood stain. The building will have an apex roof, hipped to the south elevation, with rooflights to the north, maximising natural daylight.

Grazing for equines for which the building is proposed to accommodation will on on the land to the north of the site, owned by the applicant's brother, Mr Brian Marshall.

Has the work or change of use already started?

- ☒ Yes
☐ No

If yes, please state the date when the work or change of use started (date must be pre-application submission)

Has the work or change of use been completed?

- ☐ Yes
☒ No

Existing Use

Please describe the current use of the site

The site is currently part of the garden.

In the 1980s the former owner of the property excavated the area and created a large concrete base, on which to place water storage tanks. The mound which will be to the south of the building was created by this excavation and the creation of a gulley adjacent to the eastern boundary. The water storage tanks were never installed and the hole created was became overgrown and used to dispose of unwanted materials.

The concrete has now been exposed, with soil removed used to refill the gulley. A retaining wall has been constructed to hold soil back from the hole. These walls will be part of the proposed structure. The height of the mound to the south will be reduced slightly when infill work is carried out around the retaining wall.

Is the site currently vacant?

- ☐ Yes
☒ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Walls

Existing materials and finishes:

N/A

Proposed materials and finishes:

Cast concrete and concrete block walls, reinforced with 12mm steel rebar, faced with dark stained timber

Type:

Roof

Existing materials and finishes:

N/A

Proposed materials and finishes:

Synthetic slate roofing, with Onduline corrugated roof lights to the north site of the building

Type:

Doors

Existing materials and finishes:

N/A

Proposed materials and finishes:

Dark stained timber, with wrapped steel anti-chew strips on loose box doors

Type:

Vehicle access and hard standing

Existing materials and finishes:

Existing vehicular access along the east boundary of the garden has been closed off. It formed a steep gulley and has been back-filled.

Proposed materials and finishes:

The stable yard area will be formed of Grasscrete, providing a self-draining, green hardstanding. A flint path will be laid diagonally from the north west to the south east of the rear garden, using flint dug up in the excavation period. This will be a pedestrian and horse access only. The garden is too steep for vehicular access.

Type:

Boundary treatments (e.g. fences, walls)

Existing materials and finishes:

Overgrown hedge

Proposed materials and finishes:

Existing natural hedging will be restored, to which will be added a timber rail. The yard will have a timber rail fence, gated to the east. A timber gate will be fitted in the existing space between in the northern boundary.

Type:

Lighting

Existing materials and finishes:

N/A

Proposed materials and finishes:

Solar panel or main supply electric lighting will be fitted within the outbuilding

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

- ☐ Yes
☒ No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☒ Yes
☐ No

If yes, please provide details of their name, role, and how they are related:
