Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:

We object to the retrospective planning to the offices / hard surfacing for parking for the same reason we objected to this earlier on in the year - changing the use of this land allows for more tankers / vans to be parked onsite, this then leads to increased activity once again from the nurseries - the interim operators license for the site is still active, so there is a high risk of these tankers returning to the site. The road this company has based itself on is not fit for purpose and increased traffic means increased risk of accidents occurring.

Since the tankers / workers have left site there has been a return of wildlife in the area along with walkers and horse riders - all who now feel the roads have become safe to frequent again, if the retrospective planning is approved there will be an increase in traffic again - which will in turn drive all of the above away. The retrospective planning has already been refused once, on the basis this wasn't needed and it was retrospective so the lack of respect the company have for the rules is clear from the off.

If all tankers have now moved to a new operating site, we do not feel this planning needs to or should be given the go ahead.

Thanks for taking our comments into consideration.

Kind regards
