Reasons for comment:

Comments: They have cleared the land without permission, erected a fence and laid hard standing, installed a CCTV camera on the trees looking out, which is invasion of privacy to the residents! There are already 5 caravans that you can see, multiple vehicles, a portaloo. They have cleared land opposite which they are using as a turnaround for their vehicles, they have already ruined the environment and green areas by removing multiple trees, which more than likely have a tree protection order in place. There are two other sites that have been cleared further up ridge lane which will open up to others who want to plot there caravans on. They have no regard for the residents on Ridge lane and all the comments in support are from people who do not live on this road or even in the area so count for nothing! A similar site around the corner near Harvel Lane was removed last year due to the environmental impact this had. We have residents who live here that have put in planning permission to extend their homes that have been refused, so to allow this to go ahead would be a shambles! If we cannot extend our current homes due to 'environmental impact' 'effecting PROW' then how can caravans be allowed to plot themselves on any land they see not to be in current use! I ask you to consider the impact your decision will have on the environment, the residents and you will be opening the floodgates to allow everyone and anyone to take whatever bits of land they like! Please check the closeness of those in support - they live in Darenth, maidstone, Dartford, Bromley! - they have no relevance whatsoever, they do not live on this road, this does not affect them!

Kind regards
