Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments:	I am writing on behalf of members of the local community to express strong support for the planning application to convert the disused public house into a mosque and community centre. As someone actively involved in our neighbourhood, I can confidently say this proposal reflects the real needs and values of our area. It also aligns with the principles and objectives set out in local planning and development policy. The location is highly accessible on foot, by bicycle, and via public transport, which supports sustainability objectives in both local and national planning policy. The development is not expected to generate significant car traffic, and the applicants have considered parking and noise impact carefully. This application supports broader policy objectives to reflect and accommodate the needs of diverse communities. Providing appropriate religious and cultural facilities helps ensure that all residents feel respected and included in the life of the neighbourhood.
