Reasons for comment:	
Comments:	This land is designated as Green belt in the adopted local plan and therefore development of the land is not appropriate. In the soft landscaping and laying of hard standing the biodiversity on the land will be hugely reduced and damaged which naturally will have consequences on the biodiversity in adjacent areas. Furthermore, the narrow lane through which the land is accessed is not equipped to allow the transport of large caravans and mobile homes that the plan stipulates being stationed there. Hedgerows and wooded areas have been hacked down to accommodate the vehicles that have already accessed the area and allowing more transport will only cause further damage. The debris of hedges and trees that have been destroyed so far has gathered in laybys making an already narrow lane even more difficult to travel down when coming across other vehicles.

Kind regards
