| Comments: | <p>I completely disagree with this due to:- We need our local green belt to remain in tact to provide for an outlet for local residents and support well being.</p> <p>brown and grey belt land in the local area should be developed in stead of ruining green belt. It would have much more appropriate infrastructure already in place.</p> <p>The local road infrastructure would be more prone to flooding with the loss of agricultural land. In this area the increase in traffic which would result would create a total nightmare on the already busy narrow country lanes. . The narrow lanes already suffer with increased traffic, along with flooding on a regular basis.</p> <p>The whole sense of the beauty of a local rural village would disappear.</p> <p>New road and utility infrastructure would need to be provided by the council, costing millions.</p> <p>Increased traffic from the LTC would add to the nightmare situation.</p> <p>I am strongly opposed to this and the other developments proposed in this area.</p> |

Kind regards
