Ref: 20260649

they are using the local Council for their own profit. There are already patients in the Corridors at Darent Valley Hospital.

The reason Developers don't build in other cheaper areas regarding land prices is because they want to use YOUR infrastructure. This development is bad for the Council as well as local residents. WAKE UP they are using your funds or will be later to fund new infrastructure. Make them build elsewhere and provide the new infrastructure.

John Smith

This applies to Downs Rd site and the Drive way.
