Reasons for comment:

Comments:	<p>Dear GBC Planning Committee</p> <p>I would like to register my objection to the planning application 20250802 for the following reasons:</p> <p>The additional strain on local schools and doctors etc would reduce the availability to existing residents and put extra strain on all local services. This could result in children needing to travel out the area for their educational needs and local residents waiting longer for a doctor's appointment etc.</p> <p>The planning application doesn't include the provisions for new road links required in order to prevent an increase in traffic congestion. Additional traffic will cause delays to emergency services and general traffic moving around the local and wider area.</p> <p>I do understand the need for extra housing at this location, this project is inappropriate due to reasons I have stated above. There are more appropriate sites in the Gravesham and surrounding areas which could be used and would have less of an impact to local residents.</p> <p>The underlying reason why this location has been proposed is to maximise profit by the builders due to the location and not from demands by residents living in the area.</p> <p>Please decline this application for my reasons above.</p> <p>Kind regards</p>
