Reasons for comment:	
Comments:	This development will have a huge impact on traffic on the already very busy A227, congestion, ingress and egress difficulties and road safety. More pressure on existing schools, doctors and utilities infrastructure which are already overstretched. There will also be further pressure on foul and surface water removal and the area already has problems with flooding during heavy rain on the A227 and surrounding roads. The development will have a serious impact on local wildlife especially bats and birds but also mammals and reptiles.

Kind regards
