

[REDACTED] i have attached a copy of the letter recieved and photos
I have a whole album including the causing [REDACTED] issues with parking etc
I object to the property building at 12 cornwell avenue we have to view this its ugly and a
monstrosity of a building

The reasons for objection are because the proposal will be:

1. Contrary to the original Plan they are trying to over turn their original planning permission because they have taken liberty and expecting to get away with it if we all did this there would be no natural light ,no views in which they have blocked the building its self is an eyesore
2. Unsustainable building legal requirements height for single storey the quality of the work is abysmal and safety risk
3. We have by law the right to light the 45 degree rule stands
4. detrimental impacts on the residents in the area and the adjoining properties worth will be hugely de valued property prices will Decrease as no one would want to live having that sight when looking out their window properties when you potentially buy then you go for location ,views ,etc
5. impact on people's mental health and anxiety is hugely impacted
8. potential overdevelopment, its suffercating our right to live in a lovely community we had and now its being taken over by people who feel the need to destroy natural living by blocking it with more and more buildings
9. harm to the character of the area since building we had a lovely quiet road and community but they have cause so much upset and anger no one wants to even look at then they have join in with [REDACTED] and parking cars back to back when they both have drive ways , making it impossible for people with health issues
- 10, discrination they stand in their garden chanting about others ,every Sunday all we hear is religious singing and they all Congress in to the rear buildings of [REDACTED] so no doubt no 12 too !
11. Built a dwelling at the rear end that was a lean too but now has electrics ,radiators, window ,doors ,sky light etc who needs that for a shed please someone's giving a back hander because you need planning permission for that !
- 12 . We have tried constantly to get our [REDACTED] to have sunlight and out side to play she has now ruined all our hard work she has scared him with her unruly mouth shouting and screaming when she doesn't get what she wants and smirks or laughs or makes her loud chanting mouthing in the garden he won't go out no more. how is that fair to ruin a child's life because she is slanderous shouting about us in the street too so all the neighbours can hear ! Also getting family members to put religious leaflets through our doors to make us flip

Our natural day light and view have been taken away what length do we have to go.to because no one wants a council swap because of the sight of that and what they have done

- * [REDACTED] was breached but we got told to shut up by the housing officers
- * they took down our fence that the council put in because of safety reasons
- * we have a house of multiple health issues including mental health comprised immunity,asd,adhd,bpd special needs and mobility issues to which the coucil have paid out for a wet room stair lift and much more but we are stuck no one wants to swap and we feel that we have no say they can just take away our happiness ,right to light the community feel and constantly get their slander .
