Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I wish object to this unlawful proposed application for the building of 150 house on prime green belt agricultural land which produces food for the local population.

I assume you have looked at this local area and seen that they propose making the entrance / exit onto a narrow country lane which leads onto the A227 which is a very heavily used road with numerous schools and often used as a cut through for local traffic and when there are problems on the A2 and other local major roads and motorways.

Has thought been given to the impact of the local road structure once the lower Thames crossing is up and running?

We are struggling in this area with lack of hospitals, doctors, schools etc. I haven't seen any mention of a new hospital in the area. !!!

The south east of England is over populated and the councils should make a stance to oppose the building of these extra homes in this area and look at trying to increase population in areas where there is low population.

Why has Meopham been picked on so heavily!! The applications that have been submitted would increase the population by over a third not to mention the

increase in cars by at least a third.

Kind regards
