Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	These garages are currently in use by 18 people. I have tried unsuccessfully numerous times to rent one of the garages and have never got further than speaking to a member of the team dealing with them. It always goes no further so I've given up. To say it is under utilised is untrue and as above the council themselves never reply to rental requests. Have to ask myself is this non correspondence a ploy to gain money by building on the land. Where are the 18 users expected to park any vehicles? Strand Close is already rammed with cars and there is no safe place for more to park. I also question whether these low cost flats will be available solely for Meopham residents (eg young people who'd like to stay in the village) or just sold out to London councils as I'm sure the flats behind Strand Close were? I strongly object to this development due to the already large amounts of vehicles in the road and see no reason why it is necessary if the council actually reply to requests for garage rental.
