Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I object most strongly to this application as it is a continuation of a long process of unlawful and totally unacceptable behaviour on the part of the applicant. If this or any associated application is approved it will simply be used as a lever for further unlawful activity. The proposed development is totally out of character with this previously quiet country lane. The site has been totally fenced off and paved in preparation and in effect it forms a housing development not a gypsy camp. The drainage system previously seen being installed comprised a prefabricated GRP cesspool or Septic tank and was installed in advance and without compliance with Environment Agency approval or Building Control. It is now presumably polluting the soil. The type of people who now inhabit or will inhabit the site are likely to use it for unsuitable purposes involving larger trucks and vehicles carrying construction materials, spoil and rubbish along what was a quiet clean country lane along which many trees were cut down and damaged in order to deliver a large mobile home. It is likely the activities on site will be very detrimental to the area. If approved it will be totally unfair to the majority of the local law abiding rate paying community
