Reasons for comment:	
Comments:	This development cannot be supported by current local infrastructure. Medical services and schools are at capacity. Local roads are not designed for the increase in traffic. Green Lane is a narrow road leading to an already very busy junction with the A227. The lower Thames crossing is going to generate even more traffic on the A227. This is green belt land. There is no evidence for the claim that it is 'grey belt' land.

Kind regards
