Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I strongly object to this proposal as the land that is to be developed is natural woodland in keeping with the area and is a natural habitat to local wildlife which will be displaced. Added to this the the nearby roads, which are unadopted and not maintained by local authorities but by residents in the form of voluntary contributions when repairs are required, will receive a considerable increase in traffic which will further add to the disrepair in the road surface and given that the roads are single carriageway, access to local properties will be greatly impaired. Having cleared the site of trees and vegetation prematurely prior to planning being granted has had a huge impact on localised flooding of nearby roads and footpaths following the recent wet weather we have experienced, this has caused a significant increase in danger to vehicles and pedestrians alike using the roads especially as there are no footpaths nor street lighting. In my opinion this will only get worse with the added amount of housing and vehicle traffic associated with the proposed development of rural woodland. In summary I oppose to the proposed development on Ridge Lane for the above mentioned reasons.
