Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Current installation was commenced in April 2023, not August 2023, as GBC records will show. Pleased to note that the wall to rear access lane will be reinstated to redefine the boundary, and, on the assumption that the proposed water management and dispersal to front and SW side meets regulations, that this will replace the existing arrangement where a pipe discharges straight onto the ground between our properties

Kind regards
