Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I find it extraordinary that Mr. Randhawa dares to submit yet another application for an inappropriate redevelopment and causing further extreme stress to the immediate neighbours. I note that the proposed buildings have been further modified from the previous applications but they are still unacceptable as follows. I note that on the block plan of the proposed development, it clearly shows there is not room for the two buildings as house 7A is touching the existing tree screening. I am concerned that Mr. Randhawa will have the trees removed. It is well known that there were subsidence problems with the existing bungalow and a second bungalow was never built because of the problem. So, I doubt the site could now support the greater and more concentrated weight of the two proposed houses. I am also concerned that Mr. Randwaha appears to have no respect for the area as evidenced by there always being a lot of rubbish in front of the existing property making it a permanent eyesore. Some of the existing rubbish has been there for two years. I was going to send photographs but a look at Google street view clearly shows that rubbish.
