Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: i object to this conversion application, on the grounds that it not possible to warrant another restaurant. Considering there are various other restaurants nearby, this only saturate the local restaurant market and their income would become less, further it will aid unhealthy diets the local area do not require and this also would impact the health services which already struggling. This will impact the air quality as restaurants fumes are released from cooking, and attracts more rodents from the waste. This would also absorb the history of this building as a public house which should preserved at all costs as it's a very well known establishment. No possible good can arise from having another restaurant in Gravesend and from converting a lovely building away from it's history that is highly regarded within the local community.

Kind regards
