Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to object to this development in an area of Green Belt . The development for 8 mobile homes and associated day rooms is large scale and if planning is granted further mobile homes are likely to be added.The owners of the land have already started development with no regard for green belt or the enforcement order that's in place covering the land. The site is very close to the lane making it very dangerous as you drive down the lane (single track). The lane is constantly blocked with diggers, trucks and grab lorries making it unsafe for walkers, horse riders cyclists and motor car drivers (a number of our residents are elderly and are being forced into the bushes whilst driving which is really frightening). Land in the local area has already been destroyed with no one being held accountable for the damage and this will only get worse with large vehicles using a single track lane GCC should not be using our small hamlet to house the gypsy community a problem that they should be resolving themselves. There are no amenities such as rubbish collections, proper sewers and rubbish is being burnt on a regular basis which is no environmentally friendly, goodness knows what's happening to the sewage. We have seen crime in the area increase and local residents especially the elderly are becoming increasingly concerned. As there has been a total lack of compliance with the law , injections, & enforcement orders allowing this site to go ahead would send totally the wrong message especially when locals in the area have had to go through rigouros planning applications on their properties.
