Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I wish to object to this planning application for the following reasons: Floodlights - these will cause substantial light pollution. These bright lights will cause disturbance for all properties in the surrounding area, shining into properties and gardens, disturbing sleep and general relaxation at home. They will also disrupt the habitats of wildlife, especially the bats in the area. The floodlights are not in keeping with the surrounding residential area, where council streetlights are subdued. I believe they will be a blot on the landscape, interfering with the night sky. Hours of operation - definitely too late. Operating late into the night will cause excessive noise due to increase in traffic and increase in persons using this area, this is unacceptable in a residential area. A crowd of cheering/jeering supporters late into the night will infringe on the privacy of all properties backing onto this area; they could also cause problems with food and drink rubbish being left behind encouraging vermin. With a 10pm finish people will be loitering around for up to a further hour. No mention of security or marshalling to ensure times are not exceeded and smooth exiting of cars and people. Cars entering and leaving the car park will cause disturbance due to headlights and engine noise. General - this will not encourage female sports as I'm sure the school are only interested in profit not who they rent out to. Feel there are other sites better suited to this; Maybe Meopham school would be a good alternative for the residents of Meopham. Living near to a school I do expect to have a certain amount of noise and traffic disturbance/parking issues but these are limited to the school day and non existent during school holidays, we will now have to put up with these disturbances every day, with no supervision to keep things under control. I feel the school is becoming over developed.
