Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I have to add my objection to the three areas of Meopham which have been selected for housing. It is an irreversible plan to concrete over fine arable fields which will turn the village into a small town. The housing density proposed is too high and will attract too much traffic movement, all of which will spill out onto our narrow country lanes which are unsuitable for the extra traffic generated. The access points proposed are unsuitable and will require extensive removal of banks and trees in order to enable suitable vision splays for drivers leaving and entering the estates. A227 Wrotham Road is already a well trafficked A Class road especially at peak times and school days. Further intensification will inevitably exacerbate the congestion caused by parked vehicles dropping off and collecting schoolchildren at both the existing primary and secondary schools. It may even be necessary to install traffic signals at some junctions which would seriously detract from the rural nature of the village.
